Quote of the Week

*"To be a Christian without
prayer is no more possible
than to be alive without
breathing."*

-Martin Luther

OCTOBER 4, 2016

Indoor Yard Sale
Saturday, November 5
Starts at 7:00am
AOC Gymnasium
RENT A BOOTH TODAY!!

MISSIONARY OF THE MONTH

Lavearn Brooker of “Lantern of Hope”

It is our pleasure to highlight Lavearn Brooker of Lantern of Hope as our missionary of the month. Lavearn moved to La Esperanza, Honduras and began doing what was always on her heart and answered the call to become a missionary. Santa Cruz is one of the many surrounding communities which is the poorest community in that region. Lavearn wanted to be in a place where she could take the hope of God. She chose the name “*Lantern of Hope*” (LOH) because it represented the true spirit of nursing and exemplified the life of Florence Nightingale (known as the Lady with the Lamp).

The mission of Lantern of Hope has been to present the Gospel while providing a hands on approach in meeting the medical needs, physical needs, and spiritual needs as the Lord provides while given hope to those communities.

LOH has taught the community how to fish so they can eat for a lifetime as well as grow crops and can foods. In addition, they have provided them with a well to have clean drinking water.

Education in Honduras is mandatory up to the 6th grade. When Lavearn first arrived, she noticed that not a lot of kids were in school because of the expense and the distance it took to travel. Lantern of Hope started sponsoring students so that they can go beyond the 6th grade. Lantern of Hope has truly been a blessing to the community. Lavearn is currently employed with Archbold here in Thomasville, working with case management services. Lavearn has been a member of New Covenant Church for many years. She will be returning to Honduras in January 2017 for a visit if anyone would like to join her. Please continue to pray the students will be sponsored for school, help with the food program and help for the pastors so they can continue to spread God’s word.

Taking Care of the Temple

www.healthalkaline.com

Living foods (raw, uncooked, unprocessed fruits and vegetables) should be consumed because they also hydrate, alkalize and detoxify the body. Living foods are filled with enzymes, which only God is capable of creating. Everything we do as humans, whether we think, walk, talk, blink, etc, is the result of enzymatic reactions. Yet we constantly put cooked and processed foods in our body that are void of enzymes.

The reason we eat cooked foods is because we like their taste and we are under the mistaken impression that they are healthy for us when in fact they are not. Cooked foods should be considered an addiction because they are not healthy for us, yet most of us cannot stop consuming them. It is impractical to believe that we will change our diet overnight to one comprised exclusively of living foods. Instead, we must try to make them as much a part of our diet as possible. We must create new traditions with our friends and family that revolve around living foods that are created by God and have not had their invaluable nutrients destroyed by cooking and/or processing.

THIS SUNDAY IS COMMUNION SUNDAY!
